Class Activity STartup Pitch

1. What is the startup name?

Our startup name is MatchUp. MatchUp is a digital platform created to connect startups with investors in a simple and interactive way.

2. What problem does it solve?

Many startups have good ideas and potential, but they have difficulty finding the right investors. Investors also have difficulty finding startups that match their interests. MatchUp helps both sides connect more easily.

3. Who are the customers?

Our customers are startups that are looking for investment and investors who want to discover new business opportunities.

4. How does it make money?

MatchUp can make money through subscriptions and premium services. Startups can pay for more visibility, and investors can pay for access to advanced information and search filters.

5. Why is it innovative?

MatchUp is innovative because it works like a digital matchmaking platform for business. It can suggest connections based on investment interests, business areas and startup profiles. The idea is to create a kind of virtual Shark Tank in a more accessible and continuous way.
